Subject: Microsoft Settlement

I am writing to voice my concern over the proposed Microsoft settlement. There are so many things wrong with it that I won't be able to list them all here. The worst part is that it does absolutely nothing to stem the growing abusive monopoly that is Microsoft. Computing has become one of the most important aspects of our Nation. It affects everything we see and do. Lack of competition, and having a single product forced down our throats, flies in the face of what America stands for. Was not America founded so that people can live their life free from the monopolistic powers of the church and monarchy? Where will we turn when we are all forced to worship at Microsoft's feet. And will our government be nothing more than Bill Gates' lackeys? Please hear our voice and make Microsoft responsible for their power.

Thank you,
Bobby Hays
